

Livox HAP Release Notes

Date:	2023.05.10
Livox HAP Firmware Version:	LIVOX_HAP_FW_15.05.01.15.bin (MD5: 038f9d40416ced4b94503e83f3968797)

What 's New

- Added deposit detection and window heating function. Livox HAP automatically detects whether the optical window has condensation, fog, snow, ice, or muddy water on it and attempts to remove the deposit by turning on the window-heating mode. Livox HAP sends a deposit detection report to the user if it fails to remove deposit like dirt by heating the optical window.
- Added the command to enable / disable the log in the SDK.
- Added the command to enable / disable the window-heating mode in the SDK.
- Changed the content of information push.
- Fixed some known issues.

Livox HAP Release Notes

Date:	2022.11.07
Livox HAP Firmware Version:	LIVOX_HAP_FW_15.05.0108.bin(MD5: d9037406f86e86c0b1846fc1834dff81)
